TITLE:

BRAINTECH
Digital Designer

ABOUT ME:

I'm Cyrell T. Domingo, a passionate and innovative digital designer currently in my fourth year of pursuing a Bachelor of Science in Information Technology (BSIT) at PHINMA Araullo University. My journey in digital design is characterized by a blend of confidence, goal orientation, and decisiveness, which drive my creativity, technology skills, and problem-solving abilities.

As a confident designer, I trust in my abilities and am not afraid to take bold steps to bring my ideas to life. I have honed my skills in various aspects of digital design, including UI/UX design, graphic design, and web development, using tools such as Adobe Creative Suite, Sketch, Figma, and HTML/CSS. My approach is user-centric, focusing on understanding user needs to create intuitive and engaging designs.

Being goal-oriented, I set clear, ambitious objectives for every project I undertake. I am dedicated to achieving these goals through strategic planning and continuous improvement. Collaboration and continuous learning are essential to my practice, allowing me to stay updated with the latest trends in the industry. I believe that the best designs come from working closely with others, exchanging ideas, and iterating on feedback.

Decisiveness is a key attribute that guides my decision-making process. I value quick, informed decisions that propel projects forward and ensure timely delivery. Beyond my technical skills, I am a dedicated team player and an effective communicator who enjoys working in collaborative environments.

My goal is to use design as a tool for innovation and positive change. I am particularly interested in how design can enhance user experiences and solve real-world problems. In my free time, I explore new technologies, sketch ideas, and engage in creative pursuits like photography and digital art. These activities not only fuel my creativity but also provide new perspectives that I bring into my design work.

I am always excited to connect with like-minded professionals and explore new opportunities in the evolving world of digital design. Whether it's a new project, a collaborative endeavor, or a chance to learn and grow, I am eager to contribute my skills and passion to make a meaningful impact.

PROFILE

Hello! I'm Cyrell T. Domingo, a passionate and innovative digital designer with a background in Information Technology. Currently, I am in my fourth year of pursuing a Bachelor of Science in Information Technology (BSIT) at PHINMA Araullo University. My journey in digital design is driven by a love for creativity, technology, and problem-solving. Throughout my academic career, I have honed my skills in various aspects of digital design, including user interface (UI) and user experience (UX) design, graphic design, and web development. My technical expertise is complemented by a deep understanding of the latest design tools and technologies, such as Adobe Creative Suite, Sketch, Figma, and HTML/CSS.

WORK EXPERIENCE

- Provided digital design services to small businesses and individual clients, delivering customized graphic and web design solutions. Designed and developed responsive websites using HTML, CSS, and JavaScript, ensuring cross-browser compatibility and performance. Created branding materials including logos, business cards, and social media graphics, enhancing clients' brand identity and online presence. Managed multiple projects simultaneously, meeting deadlines and exceeding client expectations through effective time management and communication.

TOOLS AND SOFTWARE

- Adobe Photoshop
- Figma
- HTML/CSS
- JavaScript
- Artificial Intelligence (AI) Tools
- Collaboration and Project Management Tools

ACHIEVEMENTS

College: Pinned - 2024
Salesforce: Double Star Ranger Rank
Dean's List: 1st Year - 1st Semester - 2021
Dean's List: 1st Year - 2nd Semester - 2022
With Honors: Senior Highschool - 2019-2021

OTHER ACHIEVEMENTS and SKILLS:

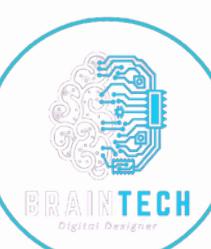

15 Superbadges

Superbadge Admin Super Set Completed March 12, 2024 Complete the capstone assessment to earn the Admin Super Set.	Superbadge User Access Troubleshooting Superbadge Unit Completed March 12, 2024 Troubleshoot user access issues based on a scenario.	Superbadge Extended User Access and Restriction Superbadge Unit Completed March 12, 2024 Build effective sharing solutions to provide the right access to the right records.	Superbadge User Access Fundamentals Superbadge Unit Completed March 12, 2024 Flex your security muscles by locking down record access.	Superbadge Security Specialist Superbadge Completed March 12, 2024 Complete the capstone assessment to earn the Security Specialist Superbadge.	Superbadge User Access Specialist Superbadge Completed March 12, 2024 Complete the capstone assessment to earn the User Access Specialist Superbadge.	Superbadge User Access Troubleshooting Superbadge Unit Completed March 12, 2024 Troubleshoot user access issues based on a scenario.	Superbadge Extended User Access and Restriction Superbadge Unit Completed March 12, 2024 Build effective sharing solutions to provide the right access to the right records. LETTERHEAD AND PROPOSAL:

BRAINTECH

for DIGITAL DESIGNERS

Dear Client

As a fourth-year student in the Bachelor of Science in Information Technology (BSIT) program at [Your University Name], I am excited to present my capstone project proposal titled "BRAINTECH Digital Designer." This project aims to develop an innovative and user-friendly digital design tool that leverages the power of artificial intelligence (AI) and brain-computer interface (BCI) technology to enhance the creative process for designers.

The primary objectives of the BRAINTECH Digital Designer project are to integrate AI and BCI technologies seamlessly, develop a user-friendly interface that allows designers of all skill levels to interact with the tool effectively, provide AI-driven design suggestions and enhancements to inspire and elevate the creative output of users, and implement real-time feedback mechanisms to help users refine their designs and achieve their desired outcomes. The project will encompass the development of a BCI integration module to capture and interpret brainwave patterns, the creation of an AI engine capable of generating design suggestions based on user inputs and brainwave data, the design and development of a user-friendly interface that supports intuitive interactions and real-time feedback, and rigorous testing and evaluation to ensure the reliability, accuracy, and usability of the tool.

The BRAINTECH Digital Designer project represents an exciting opportunity to explore the intersection of AI, BCI, and digital design. By leveraging cutting-edge technologies, this tool aims to revolutionize the way designers create and interact with digital content. I am confident that this project will contribute valuable insights and innovations to the field of information technology and digital design. Thank you for considering my proposal. I look forward to the opportunity to further discuss and develop the BRAINTECH Digital Designer project.

Sincerely,

Cyrell T. Domingo

My Advantage is **POWER**

- Confident
- Goal - oriented
- Decisive

PILLARS:

Empowering Confidence

We believe in the power of confidence to drive innovation and creativity. Our approach empowers designers to take bold steps, embrace new challenges, and trust in their abilities to create exceptional work.

Focused Goal Achievement

Goal orientation is at the heart of our design process. We set clear, ambitious goals and remain focused on achieving them through strategic planning, dedication, and continuous improvement. Every project is a step towards realizing our vision.

Decisive Action

Decisiveness guides our decision-making process. We value quick, informed decisions that propel projects forward and ensure timely delivery. Our commitment to decisive action allows us to adapt to changing circumstances and seize opportunities effectively.

THANK YOU!
